

## CERTIFICATES IN PSYCHOLOGY

The requirement for a certificate is 12 semester hours which generally translates into 4 courses: three required courses and one elective. A student may, of course, take more than the minimum. Please examine the course catalog for any prerequisites for the courses that comprise the certificates.

Please fill out the certificate form and turn it in during your last semester at Georgia Tech (approximately two weeks before the last day of class). You can get a copy of the certificate form from the psychology web page. Certificates are typically mailed out a few weeks after the end of each semester. If you do not turn in your paperwork before the end of the semester, you might not receive a certificate until a few weeks after the end of the *following* semester.

A student must take a psychology course for a letter grade if that course is to be counted towards a psychology certificate. In addition, a grade of "C" or better must be earned in each course that is to be counted towards a psychology certificate. A course may be used towards only one certificate.
