

# Dual Enrollment Psychology Courses

Asynchronous online · In-person campus option · Open to Georgia high school students

Georgia Tech's School of Psychological and Brain Sciences invites high school students across Georgia to earn college credit through four rigorous psychology courses. Spanning brain and behavior, child development, social dynamics, and physical health, these courses prepare students for careers in medicine, counseling, public health, education, business, and every field that involves working with people.

## INTRODUCTORY COURSE

### General Psychology

**PSYC 1101**

A broad survey covering research methods, brain & behavior, development, learning, memory, and mental health. Equivalent to AP Psychology exam credit at Georgia Tech.

#### CAREER PATHS

Mental health counseling · Social work · Medicine · Education · Human resources · Marketing

#### PREREQUISITES

Precalculus (completed, or concurrent enrollment)

## INTERMEDIATE COURSE

### Human Development

**PSYC 2103**

Explores physical, cognitive, and social-emotional development from conception through adolescence through a rigorous, research-based lens.

#### CAREER PATHS

Early childhood education · School counseling · Pediatric medicine & nursing · Speech-language pathology

#### PREREQUISITES

4+ from AP Psychology or PSYC1101, Precalculus (completed, or concurrent enrollment)

## INTERMEDIATE COURSE

### Social Psychology

**PSYC 2210**

Examines why people think, feel, and behave in social situations — tackling attraction, conflict, prejudice, and the forces that shape relationships and society.

#### CAREER PATHS

Human resources · Organizational management · Public policy · Advertising · Conflict resolution

#### PREREQUISITES

4+ from AP Psychology or PSYC1101, Precalculus (completed, or concurrent enrollment)

## UPPER-LEVEL COURSE

### Health Psychology

**PSYC 3009**

Explores how biological, social, and psychological factors shape physical health, well-being, and illness — at the frontier of science and healthcare.

#### CAREER PATHS

Healthcare administration · Public health · Medicine · Clinical psychology · Health education

#### PREREQUISITES

4+ from AP Psychology or PSYC1101, Precalculus (completed, or concurrent enrollment)
